

USA Swimming

Seasonal Swimmers

USA Swimming recognizes the impact that shutting down facilities will have on seasonal athletes. Current registered Seasonal members (Season 1, Season 2 and Individual Season) whose memberships expired March 16 or later will automatically be extended to 8/30/2020 in an effort to provide them with a full 150-day (and more) membership. LSCs that are offering seasonal memberships with an expiration date of March 22 and later will have their registration end date updated to 8/30 unless the end date is already set for 8/26 or later. Note: Because seasonal membership is being extended beyond the normal 150 days, LSCs that are registering or renewing seasonal members will not get an error message that would normally appear when trying to register someone beyond 150 days.
