

## The 2021 Open Water Championship

### **Important Update – July 13, 2021**

It is with a great disappointment the Open Water Committee has decided:

The 2021 Open Water Championship has been **Cancelled**.

We have spent the past weeks researching three suitable alternative sites:

- [Hueston Woods State Park](#)
- [East Fork Lake State Park](#)
- [Caesar Creek](#)

In consideration of the safety of our Athletes, and our comprehensive Safety Plan, all three locations have had multiple 2021 Water Contamination Advisories by the Ohio Department of Natural Resources (click on links above). Safe and clean water quality is a mandatory criterion required in our published OW Safety Plan.

Providing a clean and safe environment for our Open Water Swimming Athletes is always the first step in event planning, and execution.

We look forward to a more safe and successful Open Water Championship in 2022. Everything at [OhioOpenWater.com](http://OhioOpenWater.com)
